

Civil Process System

Make Civil Process Easier!

The process around serving legal documents such as civil papers is a critical function of an agency or county that can also be quite time consuming. Core Technology's Civil Process System can manage and simplify the process by providing a complete tracking system. Similar to other Core Technology products, the Civil Process System is easy to use and affordable.

For more information on Civil or other Core Technology products, visit us at www.coretechcorp.com, or contact a Sales Representative at · 800-338-2117. Core Technology Corporation, 7435 Westshire Drive, Lansing, MI 48917

Easy to Use Interface

Simply click on a webpage and you are ready to enter a new document, search existing documents, update your service attempts, create invoices and record payments.

The screenshot shows the CORE Technology interface for Customer Invoices. On the left is a navigation menu with categories: Sales, Documents, Master Data, Purchases, Reporting, and PDF Reports. The 'Customer Invoices' option is selected. The main area shows a 'Customer Invoices' header with 'Create' and 'Import' buttons. Below is a table of invoices with columns for Customer, Invoice Date, and Number.

Customer	Invoice Date	Number
<input type="checkbox"/> Agrolait, Thomas Passot		
<input type="checkbox"/> Agrolait, Edward Foster		
<input type="checkbox"/> Agrolait, Edward Foster		
<input type="checkbox"/> Agrolait, Thomas Passot
